iCal users, copy the link into your browser and it should automatically open your calendar and offer a subscription option. **Google Calender users**, copy and paste the iCal link under 'Other Calendars' and then 'Add URL'. If you simply wish to view the calendar in a browser window, follow the HTML link above.

When you add the calendar to your own, you may need to change the name of the Bergamo edition (only), as the title is currently the email associated with the Google account.
